HYBRID LUXURY FLOATING FLOOR

TOUGH. DURABLE. LOVES WATER.

by SCS certified

Front Cover Colour: Pale Gorge

LUXURY WITHOUT COMPROMISE

Aspire RCB Hybrid flooring represents next generation manufacturing techniques utilising the recently developed rigid composite core board (RCB). RCB core is manufactured from inert mineral compounds that are stable and provide little or no movement; this enables excellent performance characteristics not commonly associated within the Luxury Vinyl Tile category.

The plank construction also incorporates a robust water based PU coating for everyday scuff resistance. Aspire's 0.5mm wear layer and printed visual décor provides realistic timber textures and colours in both classic Australian timber species and a contemporary colour palette. Each plank incorporates a stabilising balance layer on the underside with an attached acoustic cross-linked IXPE foam layer that delivers excellent noise reduction performance.

This next generation Hybrid flooring is dimensionally stable, highly durable and suitable for interior waterproof installations providing instant appeal for modern housing, light commercial and retail shop fit out.

AUSTRALIAN TIMBER

The warmth and character provided by our Australian timber species, Blackbutt and Spotted Gum remain a popular choice for designers and renovators alike. Each plank provides its own unique story with 10 varying décor visuals that display stunning texture and natural colour variation.

CONTEMPORARY DECORS

Our design team has created a subtle palette with colour versatility ideally suited to a variety of on-trend interior décors. Plank décor visuals are repositioned at manufacture to provide 8 orientations of the décor paper, this delivers a floor with great personality and charm.

The entire colour range features advanced embossing techniques across the length and width of the plank including the micro bevel. This unique process will not compromise the décor visual or durability.

EMBOSSSED SURFACE PROVIDES
NATURAL WARMTH
& CHARACTER

AUSTRALIAN TIMBER

Coastal Blackbutt

New England Blackbutt

ACCESSORIES

Aspire colour matched Stair Nosing and Scotia are available to support a range of install applications. For all other trim accessories please check for availability.

STAIR NOSING

SCOTIA

KEY FEATURES

- Interior waterproof, can be installed in wet areas including bathrooms and laundry.
- Score & snap, click long edges and press fit short end for easy install.
- RCB provides superior dimensional stability.
- Excellent for renovations over existing tiles, minimal telegraphing.
- High impact resistance wear layer.
- Super width and classic width planks.
- Attached 1.5mm acoustic sound pad to enhance walking comfort and minimise sound transmission.

TECHNICAL SPECIFICATIONS

AUSTRALIAN TIMBER

1800 x 178 x 6.5mm (5.0 + 1.5 U'LAY)
5 Planks/Carton 1.920 m²

CONTEMPORARY DECORS

1800 x 223 x 6.5mm (5.0 + 1.5 U'LAY)
5 Planks/Carton 2.007 m²

- Rigid Core Board (RCB) Hybrid Plank
- Click Profile Floating Install
- 0.5mm Robust Wear Layer
- Advanced Embossed Surface inc. Micro Bevel
- Approx. 20kgs/ctn
- Interior Waterproof with attached Acoustic Underlay
- Fire Test Code Qualified and Slip Test P3
- Floor Score Certified for Interior Air Quality

Easy to clean, sweep regularly and use a damp well rung mop if required. Do not use steam mops.
