# Discover OAK

Oak XL Blackburn

## **Timeless**

Oak floors are never outdated. They take on a personality of their own with all their natural features.

## **Stability & Durability**

Comprising a hard-wearing solid oak layer over a high-density core. The engineering process makes Oak floors less prone to cup, warp, buckle with environmental changes to temperature and humidity compared to solid timber.

## **Easy Care & Maintenance**

Due to the timber's natural anti-parasitic properties, scratch & UV resistant coatings, it's continued great looks are assured over it's recommended lifetime. Do not use steam mops, just a regular vacuum or sweep of the floors is ideal.

## **Design Choice**

Builders, designers, and architects across the country prefer Engineered Oak over hardwood flooring due to its suitability in heavy traffic areas, versatility, and attractiveness. Its incredible aesthetic appeal makes choosing Oak, artwork for your floor. Adaptable to any space with a selection of colours, styles, finishes and widths available.

## **Environmentally Friendly**

Sustainable harvesting and enviro-friendly manufacturing processes make our Clever Oak range a highly conscious flooring choice. Green Guard and Floor Score Certified.

## **For peace of mind**

Your flooring investment is secure with solid structural and finish warranties.

# Clean and maintain your floors with ease

For the on-going and daily maintenance of your installed timber floors use Bona Wood Floor Cleaner. A ready-to-use, water-based cleaner that has been specifically designed for sealed timber and cork floors. It is quick, easy, convenient, and fast-drying, leaving no streaks.

In years to come bring your floors back to life with the simple use of Bona Wood Floor Refresher. The Clever Coating applied to our Oak has been specially formulated for its strength and durability, providing you an option to resurface your floors in the future. Bona Wood Floor Refresher is a very low cost, no mess, no fuss method compared to the traditional sand and polish method.

## Clever Tips:

- ✓ To avoid damage to your floors use furniture protectors
- ✓ Use a soft bristled broom or vacuum to remove dust or loose debris
- ✓ Immediately wipe-up spills or foreign substances or water from wet feet
- ✓ To remove dust, dirt or grime use a specified wood cleaner, see above.

# Installation options

## Secret Nail

This type of professional installation is discreet, fairly quick & can be cost-effective compared to using adhesives.

## Floating

Quick and easy over a Clever Acoustic Underlay for a softer slightly bouncy sound & feel. Good choice for a DIY.

## Direct Stick

To a timber or concrete subfloor. This method helps to decrease the chance of squeaking & reduces vertical movement or bounce.

# Finishing Options

View the full range of available trims & accessories on the Clever Choice website [www.cleverchoice.com.au](http://www.cleverchoice.com.au)

## Clever Tip:

- ✓ Use liquid caulk to fill the internal expansion gaps instead of metal trims when installation is secret nail or direct stick

Featured photographs are printed reproductions and should only be used as a guide, indication, or point of reference. Before making a purchasing decision always inspect actual samples at your nearest retailer. Colour and appearance can vary. Whilst every effort is taken to ensure the information presented is accurate and free from error, it is possible that some data may change without notice.

Specifications are subject to manufacturing tolerances and may be changed without prior notice. \* Please refer to our website [www.cleverchoice.com.au](http://www.cleverchoice.com.au) for warranty terms and conditions, product installation guidelines, care and maintenance guides, or to download product test reports. These documents are also available from your place of purchase.

Engineered Oak flooring is a natural product. You will expect high colour and grain variation between photographs, samples, boards and batches. No two boards are the same. These natural variations, features and characteristics are what truly makes timber floors unique and master artworks for your home.
