Masterpieces

LAMINATE

Beautiful but Tough

*Add interest and elegance to
your space with the
Masterpieces Laminate
Flooring collection.*

The Masterpieces range of Laminate floors is inspired by the classic European palaces of the 18th and 19th centuries. Featuring both Chevron and Herringbone options, this collection offers eight décors to choose from with each bringing its own unique style. Inclusive of both warm and cool tones, the colours selected have been specially chosen to ensure that there is something for everyone within the range no matter what your colour scheme or preferred style may be.

Full of timeless yet versatile designs, the Masterpieces collection is perfect for those looking to create an elegant yet boho chic aesthetic as the interesting patterns present in these floors create the ideal foundation for an eclectic style. By the same token, however, those looking to build a more minimalist design could also make use of the Chevron and Herringbone décors to bring interest and personality to a room that may have otherwise felt like it didn't have much life.

You could even install these floors in spaces where you're looking for a more traditional feel as they give a sense of old-world charm and royalty thanks to their classic inspiration.

Designed to provide a more 'natural' feel and immediately radiate captivating charm, the flooring options within this collection feature a superior AC6 rated coating which provides excellent resilience. You can expect to enjoy resistance to every day wear and tear, scratches, dents and fading as well as an ability to stand up to overly excitable pets in a way that only Laminate floors can.

Every décor within the Masterpieces range is backed by an impressive Lifetime Residential Warranty making these floors the perfect choice for anyone wishing to install Herringbone or Chevron Flooring within their home. Browse the complete collection below and reach out to your local flooring expert to discuss laying the foundation for your new design once you've made your decision.

Rivau Herringbone MP180192

Feel like royalty each time you step through the front door with our palace inspired Masterpieces Laminate flooring. Featuring both Chevron and Herringbone options, this collection can bring timeless elegance and style to your home. Our highly durable Masterpieces floors are also suitable for creating an eclectic boho style and are perfect for commercial spaces. An exceptional AC6 rating helps these Laminate floors withstand heavy traffic, 72 hour water resistance and a Lifetime Domestic Warranty provide extra peace of mind, and resistance to wear and stains round out the versatility of these floors.

What is Masterpieces?

Masterpieces is a collection of Chevron and Herringbone Laminate floorboards available in eight décors. This range is separated into five Chevron pattern options, and three Herringbone. The Masterpieces collection is 8mm thick and crafted from the below components:

Aluminum Oxide Wear Layer

Designed to provide protection for the rest of the floorboard, this hard wearing surface is highly resistant to scratches, dents, stains, burns and fading. The Aluminum Oxide wear layer provides a 100% waterproof surface and makes these floors ideal for homes with children and pets.

Imagine Floors Décor

Available in 8 designs, the décors within our Masterpieces collection offer true-to-life timber details aligned in elegant Chevron and Herringbone designs.

HDF Core

A High Density Fibreboard (HDF) core within our Masterpieces Laminate floors provide high impact resistance and enhanced stability. Masterpieces floors have a 2V Micro Bevel edge and use a Glue free, Patented LOC Hermetic anchoring snap/angle system.

Balancing Layer

This layer provides dimensional stability, balances the floorboard and creates a solid foundation for the flooring system.

What are the benefits of Masterpieces Laminate?

72 hour spill protection helps ensure that the entirety of your new Masterpieces flooring system can stand up to the unpredictability of everyday life - whether it's the kids spilling a drink or the pet having an accident.

Kids and pets can be erratic, and as much as we love them, they're probably not too concerned about the floors. The good news is that the Masterpieces collection is highly durable and able to withstand daily life.

The Masterpieces range is inherently low maintenance and easy to clean. Simply follow the Cleaning & Care Guide and enjoy your floors for years to come.

Exceptional wear resistance helps ensure that your Masterpieces floors will stay looking and feeling fantastic even in the highest traffic areas of the home.

Stains can completely ruin the look of a floor as well as the feel of your home. The good news is that the entire Masterpieces collection is stain resistant.

As the Masterpieces collection has a closed surface it does not trap dust or allergens and is considered an allergy-friendly flooring option.

The Aluminum Oxide wear layer on the Masterpieces collection of flooring helps provide a 100% waterproof surface. It's also highly resistant to scratches, dents, fading and burns.

AC6 is the highest Abrasion Rating that a Laminate floor can achieve. This means that the Masterpieces collection can withstand a lot and is suitable for installation in even the highest traffic areas of the home as well as commercial spaces with heavy foot traffic.

Every décor in the Masterpieces range is covered by an exceptional Lifetime Domestic warranty, so you can install them in your home with complete confidence.

Masterpieces Laminate FAQs

Where does Masterpieces sit in the Imagine Floors by Airstep product offering?

The Masterpieces collection of Laminate flooring is Imagine Floors by Airstep premium Laminate offering. Providing five Chevron options and three Herringbone décors this range is designed to support high end interiors with a more durable alternative to Timber flooring without compromising on aesthetic.

What makes Masterpieces special?

The Masterpieces range has the highest possible Abrasion Rating (AC6) and offers stunning visuals. The designs within the collection provide true-to-life detail while the Chevron and Herringbone patterns effortlessly enhances the elegance of any space. It is also suitable for use in even the highest traffic areas of the home as well as high foot traffic commercial spaces making the collection incredibly versatile.

What's so good about an Aluminium Oxide coating?

While most types of flooring available for homes has a PU Coating (water based polymer) Laminate floors have an Aluminium Oxide coating. This greatly enhances their resistance to scratches and damage, and means your floors will stay looking, and feeling, better for longer, even in high traffic residential spaces and commercial areas.

What expansion gap is needed?

The Masterpieces collection of Laminate flooring requires that a 10mm - 12mm expansion gap is left around walls and other fixed elements within the space - this is standard for all floating floors.

20mm colour match scotia and stair nosing are available for all décors within the Masterpieces range to allow for a seamless finish.

Where can Masterpieces be installed?

As the Masterpieces collection features an AC6 rating there are not many places that it cannot be installed. Although unsuitable for wet areas, the collection can be installed in high traffic areas in both residential and commercial spaces.

Why isn't the Masterpieces collection considered waterproof? It has a waterproof surface?

Laminate floors are not waterproof systems by nature. Although their surface is 100% waterproof the floorboards are not.

Is Masterpieces recyclable?

All Imagine Floors by Airstep Laminate flooring is 100% recyclable.

Do Masterpieces floors require underlay?

As a general rule, all floating flooring systems recommend the installation of underlay beneath your floorboards. You can find recommendations for underlay products that pair well with our Masterpieces collection within this document.

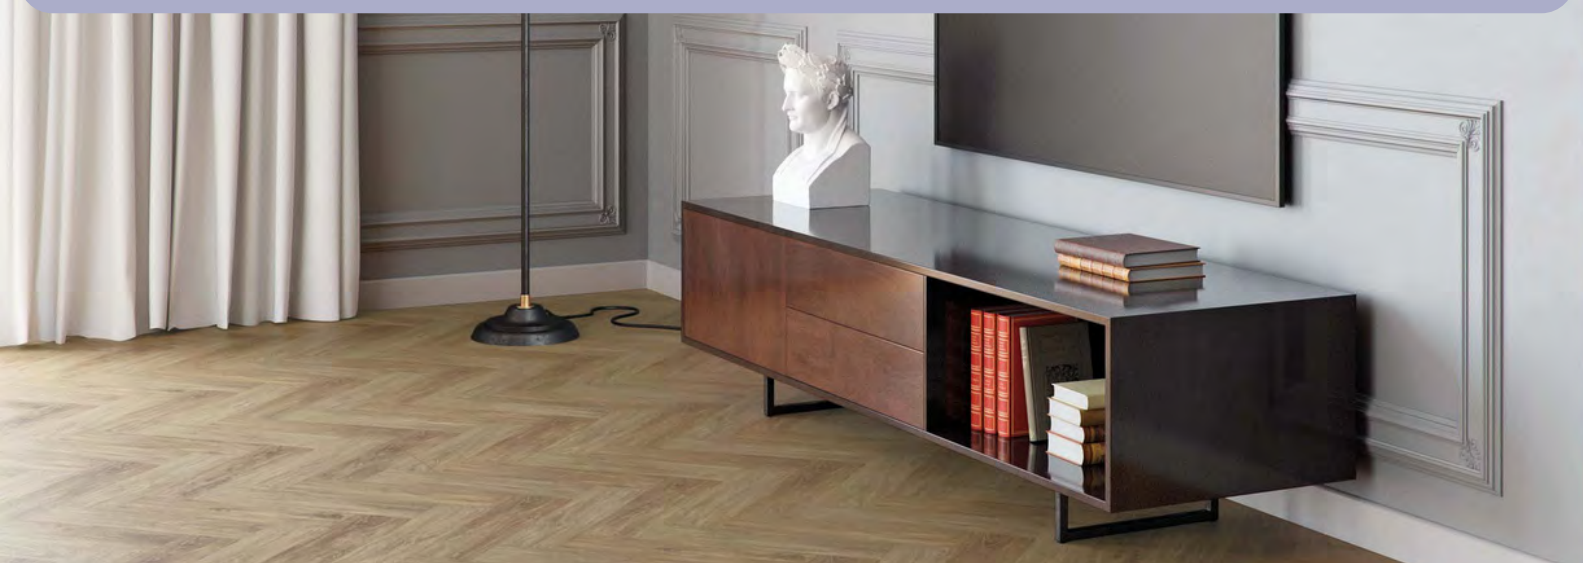

What is the maximum raft size for Masterpieces?

Masterpieces floors can be installed in a raft size up to 10m wide and 12m long. If these dimensions are exceeded compartmentalisation is required and expansion trims must be used. Please refer to Installation Instructions for further guidance and information.

What should I do if I have further questions?
