# Clever features list

Sleek boards create a timeless and spacious aesthetic that offers simplicity and versatility making it suitable for a wide range of sizes and styles.

Pattern variation is essentially the level of realism that is achievable with a product. Our eyes are great at picking out repetition, but we can fool them into thinking there is less than there actually is. We achieve this by designing patterns that are larger than our boards and then cutting them in multiple different spots.

A super matt finish is more textured and less reflective which hides scratches and dust, making them less visible.

This is the highest standard of floor texture where the press used for the emboss is etched to match the printed pattern to provide an ultra realistic finish.
