Hybrid | Immortal Chevron

Clever features list

Elegance meets modernity with a unique V-shaped arrow pattern and striking 45 degree cuts that are enough to bring any space to life. Chevron board patterns are ideal for big statement areas.

Pattern variation is essentially the level of realism that is achievable with a product. Our eyes are great at picking out repetition, but we can fool them into thinking there is less than there actually is. We achieve this by designing patterns that are larger than our boards and then cutting them in multiple different spots.

A super matt finish is more textured and less reflective which hides scratches and dust, making them less visible.

Higher scratch resistance and ability to deal with throwing, dropping and banging of toys and other objects make this collection suitable for families. Relatively high water resistance also helps with spills that don't sit for long periods of time.
