Clever features list

Combines a water-resistant surface with a water-resistant core to provide comprehensive protection against spills, moisture, and water, ensuring both surface and core are less affected. Ideal for more areas of your home or project.

Our high quality printed patterns give the look of real natural timber with all the benefits of a vinyl floor.

Our eyes are great at picking out repetition, but we can fool them into thinking there is less than there actually is. We achieve this by designing patterns that are larger than our boards and then cutting them in multiple different spots to give the illusion of greater pattern variation.

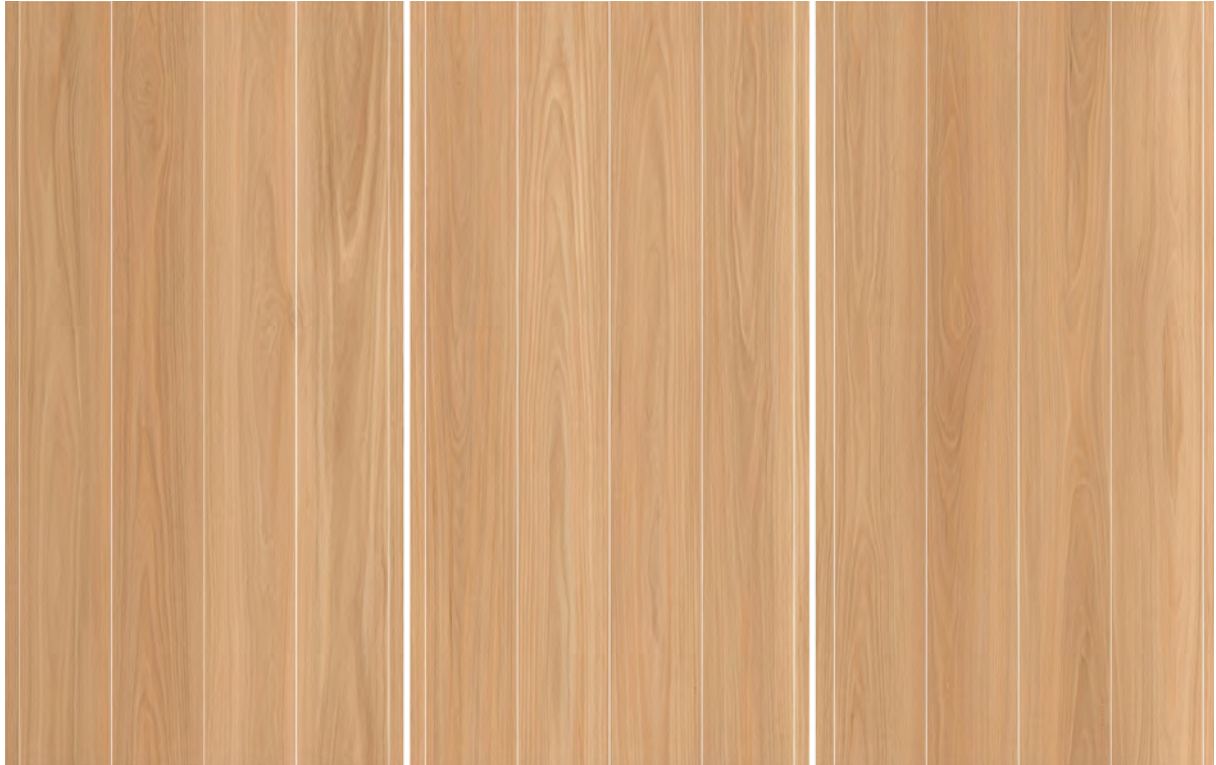

A super matt finish has a smooth, textured appearance which feels luxurious to the touch. The surface is less reflective and hides scratches, dust, and imperfections well.
